Thanks for the feedback, Jeff. Unless we hear otherwise, we'll proceed with the Maryland call first. With the number of participants, would likely be the week of the 17<sup>th</sup>.

FYI – please be sure to include Cindy Wire on this discussion as I'll be out next week.

Thanks,

Beth

Thanks very much. That seems logical to me unless Marietta and Kimberly have thoughts.

Thanks again,

Jeff

Jeff:

Adding Sandra as we just spoke about the Maryland call and this sounds like a separate but similar call with Massachusetts. Please confirm.

Region 1 and Massachusetts worked hand in hand on this issue and are a bit further along than Maryland. I would recommend Region 1 participates in this call as well.

I can work with Sandra and Region 1 to identify the right Region 1 and Massachusetts contacts. I assume we would take a similar approach and have executive level contacts and whomever else Region 1/Massachusetts suggest.

Please let me know.

Thanks,  
Beth

**Subject:** contact with Mass. on PFAS mosquito control/container issue

Hi Beth,

I was hoping you could help us arrange a contact with the state of Massachusetts on the PFAS container issue related to mosquito control products?

We thought it may be better to work this issue through the regions to ensure we get to the correct people and not just stovepipe the issue with our limited contacts and the sensitivity of the issue.

Basically, we would like to have a conversation on these general topics:

- Status of the product packaging issue
- Mass. operational needs for beginning applications, etc.
- General check in on the PFAS topic

Is it possible you could arrange a connection via a Region 1 contact?

Thanks and please let me know if you have questions, etc.,

Jeff
